APÉNDICE C: ÁREAS PARA LA DISTRIBUCIÓN NORMAL ESTÁNDAR

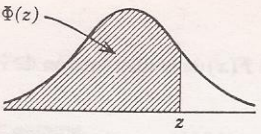

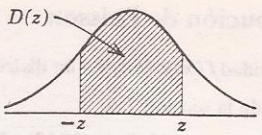

Las entradas de la tabla siguiente dan el área bajo la curva entre la media y z desviaciones estándar por encima de la media. Por ejemplo, para $z = 1.25$, el área bajo la curva entre la media y z es de 0.3944.

z	0.00	0.01	0.02	0.03	0.04	0.05	0.06	0.07	0.08	0.09

3 Distribución normal

Tabla 3*a*. Función de distribución (3) de la sección 8.2

$D(z) = \Phi(z) - \Phi(-z)$
$\Phi(-z) = 1 - \Phi(z), \qquad \Phi(0) = 0.5$

Tablas más extensas: National Bureau of Standards (1953), Hald (1962). Indice para otras tablas: Greenwood and Hartley (1961) (ver el apéndice 3).
