Development.

In this document, we propose an idea for improving performance in a work area. In our case, I will use an example that I am working on with a keyboard brand, using the structure of elevator pitch.

Introduction, experience, goals, solution, and plan.

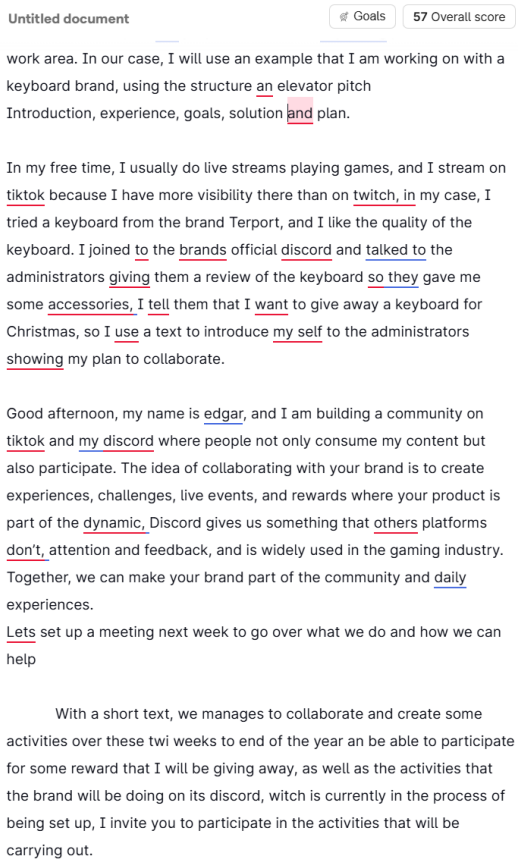

In my free time, I usually do live streams playing games, and I stream on TikTok because I have more visibility there than on Twitch, in my case, I tried a keyboard from the brand Terport, and I like the quality of the keyboard. I joined to the brand's official discord and talked to the administrators, giving them a review of the keyboard, so they gave me some accessories. I tell them that I want to give away a keyboard for Christmas, so I use a text to introduce myself to the administrators, showing my plan to collaborate.

Good afternoon, my name is Edgar, and I am building a community on TikTok and my Discord, where people not only consume my content but also participate. The idea of collaborating with your brand is to create experiences, challenges, live events, and rewards where your product is part of the dynamic. Discord gives us something that other's platforms don't, attention and feedback, and is widely used in the gaming industry. Together, we can make your brand part of the community and daily experiences.

Let's set up a meeting next week to go over what we do and how we can help

With a short text, we manage to collaborate and create some activities over these two weeks to end of the year an be able to participate for some reward that I will be giving away, as

well as the activities that the brand will be doing on its Discord, witch is currently in the process of being set up, I invite you to participate in the activities that will be carrying out.

Good afternoon, my name is edgar, and I am building a community on tiktok and my discord where people not only consume my content but also participate. The idea of collaborating with your brand is to create experiences, challenges, live events, and rewards where your product is part of the dynamic, Discord gives us something that others platforms don't, attention and feedback, and is widely used in the gaming industry. Together, we can make your brand part of the community and daily experiences.
Lets set up a meeting next week to go over what we do and how we can help

With a short text, we manages to collaborate and create some activities over these twi weeks to end of the year an be able to participate for some reward that I will be giving away, as well as the activities that the brand will be doing on its discord, witch is currently in the process of being set up, I invite you to participate in the activities that will be carrying out.

When using Grammarly, I began to notice that I often miss commas an and make some grammatical errors. Although I try to write correctly and make it readable and I make mistakes by omitting commas and periods, and notice that Grammarly don show me the errors on the bottom script.
